Re: NATROBA

U.S. Patent Nos. 6,063,771 and 6,342,482

Docket Nos. FDA-2011-E-0371

FDA-2011-E-0379

The Honorable David J. Kappos
Under Secretary of Commerce for Intellectual Property
Director of the United States Patent and Trademark Office
Mail Stop Hatch-Waxman PTE
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Director Kappos:

JUN 2 2 2011

This is in regard to the applications for patent term extension for U.S. Patent Nos. 6,063,771 and 6,342,482 filed by Eli Lilly and Company, under 35 U.S.C. § 156. The human drug product claimed by the patents is NATROBA (spinosad), which was assigned new drug application (NDA) No. 22-408.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1).

The NDA 22-408 was approved on January 18, 2011, which makes the submission of the patent term extension application on March 17, 2011, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

Jane a. Axelrad

Associate Director for Policy

Center for Drug Evaluation and Research
